

FinCity.Tokyo

Global Networking

– Third Event –

30th November, 2020,
4:00pm-5:30pm (JST)

FinCity.Tokyo will hold an online seminar to generate interest in foreign fintech companies among domestic VCs, CVCs, and financial institutions.

The seminar will include keynote speeches detailing examples of investments in FinTech companies made by Japanese VCs/CVCs, and success stories of collaborations between foreign FinTech companies and local Japanese financial institutions. We will also conduct pitch sessions from foreign FinTech companies to local VCs, CVCs, and financial institutions.

Target Audience

- FinTech companies, headquartered overseas (all companies welcome regardless of business presence in Japan)
- Japanese VCs, CVCs, and Financial Institutions who are interested in investing into/ cooperating with foreign Fintech companies

*This event is organized by FinCity.Tokyo

List of foreign FinTech companies for the pitch session

Banking (Payment / Remittance)

<u>Company name</u>	<u>Company description</u>
• Amberdata	Amberdata is a digital asset data infrastructure company focused on helping financial services firms trade, transact, and build new products. We unify blockchain-network and cryptocurrency-market data, metrics, and reference rates into a single integration point, massively accelerating time to market for firms embracing the emerging asset class.
• Manali E-Business Pvt Ltd.	A complete eco-system for M&A, Investments, JVs for small to medium size businesses. From preparation plans to closure of a transaction- the full circle eco-system provides the perfect level of support to businesses at all levels. The current focused market is India; planning to expand to other geographies, country by country.
• Uprise Credit Limited	Uprise is a card enablement platform that lets individuals and businesses use debit or credit cards to pay vendors that don't accept cards. It also acts as a simple online POS for merchants to accept payments.

Securities / Asset Management

• HedgeSPA Pte. Ltd.	HedgeSPA's mission is to revolutionize the landscape of professional investment analytics by democratizing access and to give all professional investors sophisticated tools to realize their full business potentials. Our core investment platform is unique in its utilization of Artificial Intelligence, Big Data, and High-Performance/Quantum Computing to simulate all possible combinations on an immense volume of fundamental and economic factors.
• Ignition Wealth Ltd.	White-label Robo-advisory for Investing, Insurance and Pensions.
• Safari Asia Ltd.	An all-in-one online trading and investment solution mobile app especially for generation X, Y & Z (the mobile generation).

Insurance

• Akur8	Akur8 developed a unique AI-based insurance pricing solution that automates modeling for insurance companies while keeping full transparency and control on the models created, as required by regulators worldwide. Akur8 is the only solution on the market reconciling Machine Learning and Actuarial worlds - enabling customer lifetime value based price optimization.
• DepositPass (AvalVida)	B2B marketing, distribution & sales and issuance & processing of LOW COST rental guarantees based on pledges (assignments) of life insurance-savings policies by tenants in favor of landlords to guarantee obligations under tenancy agreements charging a one-off & all-in fee.

Others

• Comarch	Comarch Anti-Money Laundering is an AI-based, self-improving system that takes the burden of monitoring and flagging potentially suspicious transactions off your shoulders, and lets you focus on more complex challenges.
